Important Decisions of the Supreme Court.

CELEBRATED DRESSED BEEF CASE.

The Court Holds That the Minnesota Dressed Beef Law is Unconstitutional, and Affirms the Decision of the Lower Court—Proceeding in the National Legislature—Weather Crop Bulletin for the Week Ending May 17.

WASHINGTON CITY, May 19.—The supreme court of the United States has decided the celebrated case of the Cornell university vs. Fisk from the New York superior court. The decision of the lower court against the university is affirmed. The decision involves the disposal of a large bequest—the Fisk-McCraw estate. The court also decided all except one of the Virginia coupon cases in favor of the bondholders.

The "Dressed Beef" Case. The supreme court has also rendered a decision in the case of the state of Minnesota vs. Henry E. Barber, the famous "dressed beef" case. The court affirms the decision of the lower court, declaring the dressed beef law unconstitutional, and discharging the appellee from custody. Barber was convicted before a justice of the peace in Ramsey county, Minn., of having wrongfully and unlawfully offered and exposed for sale, and having sold some fresh beef, part of an animal slaughtered in Illinois, but not inspected in Minnesota, and "certified" before slaughter as required by the statute of Minnesota. Barber sued out a writ of habeas corpus on the ground that the law was repugnant to the provision of the constitution giving congress power to regulate commerce between the states, as well as to the provision declaring that citizens of each state shall be entitled to all privileges and immunities of citizens in the several states.

The Obnoxious Statute. The lower court held the statute to be in violation of both those provisions. In the decision handed down by Justice Harlan, the obnoxious statute is quoted at length. The presumption that it was enacted in good faith, to protect the health of the people of Minnesota, says the court, cannot control the question of constitutionality. In Henderson, etc. vs. Mayor, etc., a New York case, the court said: "In whatever language a statute may be framed, its purpose must be determined by its natural and reasonable effect."

A Discrimination. The court holds that this statute makes a discrimination against the products and business of other states in favor of the products and business of Minnesota. "If this legislation does not make such discrimination it would be difficult to enact legislation which would have such a result," says the court. The provision that would require animals to be sent into Minnesota to be inspected and then returned to be slaughtered within twenty-four hours of the inspection, amounts to an absolute prohibition upon sale made in Minnesota of meat from other states, and is repugnant to the provision of the constitution which prohibits such discrimination within its limits. The point made by counsel for the state that so far as this statute is concerned, the people of Minnesota can bring meats into the state for their personal use, the court thinks deserves examination. But this view ignores the right which the people of other states have in commerce between these states and the state of Minnesota.

THE NATIONAL HOUSE.

The Tariff Bill Still Occupying the Attention of the Senate.

WASHINGTON CITY, May 19.—In the house Monday morning Wilson of West Virginia, made a statement concerning the controversy between Bayne, Bynum and himself about the Campbell affidavit. He asked Bayne if he intended the charges contained in Campbell's letter, so far as they applied to him (Wilson), and Bayne replied, expressing regret that the controversy should have occurred, and denied that he intended any reflection on either Bynum or Wilson. Wilson then said he had no further statement to make, and the subject was dropped. There was some applause on the Democratic side, and the house then resumed consideration of the tariff bill, the pending amendment being that offered by Funtun, of Kansas, striking from the metal schedule the proviso that silver coins and all other coins containing silver shall pay a duty of 1½ cents per pound on the lead contained therein, according to sample and assay at the port of entry.

Prompt Action Recommended.

WASHINGTON CITY, May 19.—The president sent to the senate Monday a letter of the secretary of state submitting the plan for a preliminary survey for a railway line to connect the principal cities of the American hemisphere, in accordance with the recommendations of the Pan-American conference. The president is urging prompt action by congress to enable this government to participate in the promotion of the enterprise. The share of the United States in the cost of the survey will be \$65,000.

Unfavorable for the Crops.

WASHINGTON CITY, May 19.—The weather crop bulletin for the week ended May 17 says: The weather during the past week in the northwest, including the states of the Missouri and Upper Mississippi valleys and upper lake region, was generally unfavorable for ideal private citizens and a low temperature, which was accompanied by frosts, causing some injury to fruit and retarding growth of crops.

Presidential Favors.

WASHINGTON CITY, May 19.—The president has sent to the senate the following nominations: To be collector of customs—George B. Sawyer, of Maine, for the district of Wisconsin; Maine; George Christ, of Arizona, for the district of Arizona.

Prominent Chicago Lawyer Dead.

CHICAGO, May 19.—Wirt Dexter, one of Chicago's best-known lawyers, died suddenly Saturday night from an attack of angina pectoris. Mr. Dexter was born in Dexter, Mich., in October, 1833. He was a grandson of Samuel Dexter, the secretary of the treasury under John Adams. Avoiding public life, he secured the reputation of an ideal private citizen and a lawyer of the highest ability and character. He was a profound scholar, an eloquent orator, a generous sympathizer with all that deserved sympathy, and socially a magnificently appearing man of charming manners, brilliant repartee and dignified bearing.

THE CHICAGO WAITERS.

The Principal Hotels Refuse to Recognize the Culinary Alliance.

CHICAGO, May 19.—Fifty-nine waiters employed at the Palmer house—half of the force—were discharged Monday morning on their refusal to leave the Culinary alliance. At a meeting of proprietors of all the leading hotels in the city, including the Auditorium, Grand Pacific and Palmer house, it was resolved to unite in an aggressive action toward the waiters' union and to meet next Wednesday to take further action toward organizing the "Chicago Hotel and Restaurant-Keeper's Association." President Pomeroy of the Culinary alliance left for New York Sunday. The purpose of his visit is to call on the waiters of the Gilsey and Brunstich hotels, both of which are under the same management as the Auditorium hotel of this city.

Refuse to Recognize the Union. Manager Dalb of the Commercial hotel refused to treat with a committee of the Culinary alliance Monday morning, and as a result forty union waiters went out. The Tremont house also refused to recognize the union, but the waiters there have not yet gone out and the manager says they will not unless great pressure is brought to bear upon them. Both of these hotels demand, but under no circumstances will they treat with the Culinary alliance.

JONES DECLARED INSANE.

The Ex-Senator To Be Confined in a Mental Asylum.

DETROIT, Mich., May 19.—The examination into the sanity of ex-Senator Charles W. Jones, of Florida, occurred Monday morning before Probate Judge Durfee. Senator Jones appeared with a petition to the United States circuit court praying for the removal of his case to the federal court, he being a citizen of Florida. The petition was disregarded by the state court and an order for his commitment issued. Jones will be confined in St. Joseph's retreat of the Sisters of Charity at Dearborn, nine miles from Detroit, and an effort will be subsequently made to have him transferred to the government insane asylum at Washington. The ex-senator says he will carry the case to the United States supreme court before he gets through with it, and as he is clear on every legal point, and unaided only as to his monomania as to his marrying an heiress, he promises some work for the lawyers.

World's Fair News.

CHICAGO, May 19.—The vacancy caused by the resignation of Mr. Stuyvesant Fish as a world's fair director has been filled by the election of William Borner, general western freight agent of the Pennsylvania road. In his letter of resignation Mr. Fish says that questions might arise in connection with the lake front as to the fair that would require action on his part as president of the Illinois Central road; therefore he thought best to resign. The general impression now is that neither the director general of the fair nor the secretary will be a Chicago man. It is thought best to not give out the idea that Chicagoans to monopolize the management of the exposition.

Killed a Mad Dog.

LITTLE ROCK, Ark., May 19.—Word was received here that Miss Maggie Dickinson, aged 20, had killed a mad dog which had been terrorizing the community in the vicinity of Okonko, Ark. A mad dog has been at large there and bitten several dogs and a child. The dog was shot at the residence of Col. Dickinson. Miss Dickinson and two women were the only persons on the premises. Miss Dickinson, fearing that the dog would fatally hurt some of the children in a school-house near by, seized her father's rifle, fired the shot, and striking him in the head killed him instantly.

Secretary Blaine Getting Bald.

PITTSBURG, May 19.—A friend of Mr. Blaine, who has just arrived from Washington, says of late there has been a great change in the secretary's appearance, which has puzzled his friends. His explanation is that Mr. Blaine has at last become a member of the great army of men who are attempting to conceal the fact that they are rapidly becoming bald. He now parts his hair just above his ear and draws the hair straight across the forehead, which he is spreading, then says to make each hair do as much service as possible.

Horrible Cruelty to a Boy.

MASCHIEFER, N. M., May 19.—Ludie Dunstons, aged 13, and Alex. Anderson, aged 17, were arrested on complaint of the mother of Charles H. Howe, a delicate 10-year-old lad, charging them with acts of cruelty perpetrated by Jesse Pomeroy. It is alleged that the boys took Howe into an outhouse, stunk pins into nearly every part of anatomy, poured boiling water upon him, buried his face in a sawdust, and after vainly endeavoring to push him into the vault, left him insensible, and he was found unconscious.

Destructive Fire at Toledo.

Stanley's Coming Marriage.

LONDON, May 19.—The approaching marriage of Stanley with Miss Tennant is the social sensation of the day. S., May 19.—At Westville, Thursday, under the influence of liquor, Dan Robertson and William Robertson—two relatives—got into a fight and three men stood by while Dan pounded William's face into a jelly with an iron bar. THE CREW OF SEVEN PEOPLE LOST.

The Calamity Occurs on Lake Ontario Near Nine Mile Point Light—A List of Those Drowned—Horrible Death of the Night Dispatcher in the New York Post-Office—A Large Number of Lives Lost at a Havana Fire.

KINGSTON, Ont., May 19.—The schooner Jessie Brock, which left here four weeks ago for Toledo, was wrecked Saturday on her return trip. She was loaded with oak timber and had a good voyage until early Saturday, when being a few miles off Nine Mile point, she was struck by one of the heaviest gales that has swept Lake Ontario for many years. It is not known exactly where she was driven ashore. A wrecking tug was dispatched and found the wrecked schooner lying on her starboard side at a point a half-mile from Nine Mile point light.

HE DIED A HORRIBLE DEATH.

Caught in a Caving Well and Gradually Suffocated.

NEW YORK, May 19.—James H. Parrells, night dispatcher in the New York post-office, was killed by the caving in of a well on his place at Woodside, L. I., Saturday. Mr. Parrells was repairing a well, when it partially caved in, burying him nearly to the neck. The quicksand continued to run down, and the efforts of neighbors to extricate the unfortunate man only increased his danger. A rubber tube was procured and placed in Mr. Parrells' mouth, and he was kept breathing after the sand had covered his head.

Efforts at Rescue Were Vain.

After several hours' labor the sand was cleared away again, but it was found that Mr. Parrells had been unable to retain the tube in his mouth, and had been choked to death. He was one of the leading citizens of Woodside. He leaves a widow and six children in comfortable circumstances.

SYRACUSE, N. Y., May 19.—A fatal accident by which Charles Riggs, a popular young man of this city and a book keeper in the firm of Kennedy, Spaulding & Co., met his death, occurred at about 4 o'clock in the morning in a boarding house located at 201 North Clinton street. It was another of those cases commonly denominated as "didn't know it was loaded." A rifle was discharged during a frolic, killing Riggs. The man at whose house Riggs met his death, Robert E. Wittenmyer, who succeeded in signaling a message by a single flash 133 miles from Mount Reno, near Fort McDowell, to Mount Graham, near Fort Grant, where it was received by Capt. Murray. The latter by turning his instrument flashed the message to Fort Huachuca, a distance of twenty miles, making a distance of 215 miles, with a single intervening station. The longest distance heretofore made is said to have been about seventy miles.

A special train on the North-western road at 1 o'clock took the members of the union and their friends to the cemetery, where they gathered in large numbers. The exercises of dedication were very simple, but appropriate and impressive.

PARIS, May 19.—The Temps has advice from French possessions of Senegal which report the capture of Segon and Onosongob by the French forces. Stabbed by a Woman.

NEW YORK, May 19.—David Lorrigan Saturday afternoon entered the house of Mrs. Lottie Vance, a good-looking widow who lives next door to him in Buffalo, N. Y. He caught her in his arms, but the woman fought like a tigress, bit his hand, and claved his face. He persisted in his assault, and she, in her turn, snatched a bowie-knife from a bureau drawer and made a pass at Lorrigan. He fled, but as he stopped to open the door she stabbed him three times in the shoulder. He went home and made no complaint, but the police heard of the deed and promptly arrested the man. The man will probably be arrested.

George Francis Train Arrives in New York.

FIFTY-NINE DAYS FROM TACOMA.

The Globe-Circler Says He Is in Excellent Health and Intends to Make the Trip Around the World in Sixty-Four Days—He Has a Fine Collection of Hats, Having Purchased One in Each Port He Touched.

NEW YORK, May 19.—Psycho has arrived. It took him only fifty-nine days to go from Tacoma to this city, by the way of the antipodes. He says he is still George Francis Train, that he feels twenty years younger, that he lost his birthday, March 24, at the 183d degree, meridian, and that he intends to make the grand circuit in sixty-four days. Then the smash will come. Citizen Train arrived at 2 o'clock Sunday morning by the Elurina, and when he awoke, two hours later, he found the tug F. W. Devos bobbing in the water with a party of his friends aboard, waiting to take him ashore. He gave a whoop of appreciation, and clad in the same brown suit of clothing he wore when he left Tacoma behind him March 18, with a fez stuck jauntily upon his silver hair and a red silk neckerchief about his waist, he rushed down the side gangway and leapt into the arms of his friends.

Shook Hands a La Chinese. "Just in time to see the grand smash," he ejaculated. "Who's the dictator?" When informed that the country was still safe he shook his own hands with everybody, a la Chinese.

"By the way," said bery Citizen Train, looked truly proud—"I've got a fine collection of hats here. Bought one in every port. I'm as physicist as ever, and when I get back to Tacoma I'm going to begin a series of tours around the world in behalf of the world's fair in Chicago, simply to show the people who squat on Plymouth Rock that they don't own the whole world."

En Route to Tacoma.

Citizen Train went with a party of friends to the Continental hotel, where he remained until Monday afternoon. At 6 o'clock Monday night he and his party started on a special train from the Grand Central station for Chicago, which he will reach Tuesday. Then he will continue to Omaha and Tacoma by the Chicago and Northwestern railroad. He declares that he will make the complete trip in sixty-four days, though even should he make Tacoma in sixty days he will surpass all previous efforts in globe trotting and make the journey of Jules Verne's Fogg appear very insignificant.

Having been so long accustomed to politics, he now felt the lack of such activity. His resignation was absolutely final. Germany would never attack France nor provoke an attack by France.

REPORTS AND LIQUOR LICENSES.

The Council Does Nothing Unusual at the Regular Meeting.

All the aldermen and about 50 spectators were present at the council meeting last night. The business was of the usual order, something because it began to rain and the aldermen in disgust when Ald. Harwood moved about 9 o'clock to adjourn until Friday night. Annual reports and two liquor licenses were the only things that were passed upon.

COMMUNICATIONS.

A committee of the Grand Army of the Republic extended the council an invitation to take part in the memorial day exercises on May 30. It was resolved that the council attend the exercises in a body.

About 35 citizens asked the council to direct that necessary steps be taken to open South Franklin street, as by ordinance already passed. It is suggested that the street be opened under the Illinois Central tracks. It was ordered that the prayer of petitioners be granted and that the city attorney take the necessary steps.

NORTH STREET PAVEMENT.

The public improvement committee recommended the acceptance of the North street pavement between church and College streets, except a small place left open for the Union street sewer. The recommendation was concurred in.

LIQUOR LICENSE.

P. W. Donohue asked for a liquor license for a saloon at 633 East Eldorado street. The request was accompanied by a petition signed by officers and members of a church and about 35 other property owners of that vicinity, recommending against granting the license. Ald. Harwood moved that the prayer of the petitioners be granted. Ald. Graham moved as a substitute that the bond be approved and license granted. The ayes and nays were called and the license was granted by vote of 7 to 3, Alderman Harwood, Park and Simpson voting nay.

Michael Witt, who asked for license for a saloon at 825 North Calhoun street four different times last year and was refused each time, asked again for license. Ald. Moran, seconded by Ald. Ferguson, moved that the license be granted. On an aye and nay vote there was a tie, Aldermen Graham, Harwood, May, Park and Simpson voting aye. The mayor gave his vote to the affirmative, granting the license.

TELEPHONE ORDINANCES.

Ald. Scanlan, as chairman of the street and alley committee, said his committee had conferred with Superintendent H. H. Matlock, of the Central Union Telephone company, relative to the ordinance granting the company a franchise in the city. The superintendent said as soon as the ordinance was passed the company would put its wires in the business part of the city into cables, thus doing away with the network of wires. Ald. Scanlan said the company was anxious to have something done, and the alderman asked the council to express an opinion, so that they could know what was to be done.

Ald. Simpson said he thought the telephone company had had the valuable franchise for nothing long enough, and he thought it was time to make it pay something.

He was opposed to giving away street car and telephone franchises any longer, when they might be made to bring the city an income.

He thought the telephone company might furnish the city a fire alarm system in return for a right to put up poles and wires in the streets.

Ald. Ferguson said this company's patents would expire by the 12th of next January.

The council then seemed to think that the company was hurrying to get a franchise to have a right to the streets after that time, and adjourned without doing anything.

The adjournment was until Friday night, when it is understood the sewer contract will be presented.

A Tin Wedding in the Country.

Saturday, May 17th was the 10th anniversary of the wedding of Mr. and Mrs. Henry M. Wilson, and it was celebrated in a very pleasant manner by themselves and friends at their home southwest of the city. They were the recipients of many beautiful presents. Refreshments were served. Beautiful songs were rendered on the organ by Misses Daisy and Stella Fletcher. The company departed late in the evening, all wishing the happy couple many returns of the day.

Among those present were Mrs. Martha Fletcher, Mrs. Harriet Wilson, Mrs. Lizzie Wilson, Mrs. Mary Stivers, Mrs. Lizzie Fentress, Mrs. Clara Gray, Mrs. Ida Widick, Mrs. R. J. Ross, and Mrs. A. P. Fletcher, Mr. and Mrs. J. W. Fletcher, Mrs. Nellie Cunningham; Misses Nevada and Lena Fletcher, of Mechanicsburg; Misses Lela Gray, Clara Wilson, Abbie and Lora Ridgeway, Mabel Ross, Griffin Fletcher, Gertrude Wilson, Cora Cunningham, Minnie Fletcher, Edith Cunningham, Fannie Stevens, and Frances Fletcher, Roy Fentress, Master Herbert Wilson, Ida Wilson, May Wilson, George Wilson, Theron Fletcher, Misses Daisy and Stella Fletcher, Ethel Ross, Mary Wilson and Charlie Stivers.

Universalist Church.

A large audience was present at the evening service of the Universalist church to hear Rev. Sophie Gibb on "The Evolution of Spirit." The discourse might have been just as appropriately termed "The Evolution of Man." It was a thoughtful and scientific discussion of the ascent of the upright animal man endowed with brain, exercising domination over all other life.

A late contribution of Dr. Morris to the Globe Democrat on Spiritualism came in for extended notice. It was regarded earnestly that the world was occupying a higher spiritual position than ever before, and that humanity is now susceptible to the unseen forces and that the time is coming when these influences will be better known.

Twentieth Anniversary.

Almost 100 friends of Mr. and Mrs. Francis Skelley drove out to their fine country residence Sunday to help them celebrate the 20th anniversary of their marriage. As a fit beginning of the exercises, Mr. and Mrs. Skelley were presented with a handsome china dinner set. An immense dinner was served from 12 o'clock till 3. The afternoon was passed pleasantly in rambling about the country and with games by the young people. The whole company stayed to supper, which was served under the trees in the yard. It was 7 o'clock before the last table was cleared, and the Decatur people thought about returning home.

The Third Party.

The irrepressible prohibitionists of Macon county meet in convention this morning at 10 o'clock at the court house, to send delegates to the state convention, which meets at Bloomington May 22. They will also choose delegates to a senatorial and congressional convention. A county ticket will either be nominated or arrangements made to do so later. All this indicates that they intend to make life miserable for the peace-loving disposed temperance patriot of republican proclivities, who is quietly rooting on the fence and objects to mixing temperance and politics.

Real Estate Transfers.

Ann M. Wood to J. T. Ward eight lots in Blue Mound; \$600.

Andrew Rothfuss to Mary J. Wells, a tract in Decatur township; \$9,100.

John A. Wilson to Martin V. Lonergan, 3 1/2 acres in Mt. Zion township; \$275.

The Binding Twine. In talking to a reporter about binding twine, Col. J. W. Thornhill said all the binding twine used here would be bought through the state agent of the F. M. B. A. He refused to say where it comes from or what it will cost. Agent McGibbin offers to furnish either of the five varieties of twine, the more expensive of which are "Manilla," "Silver Thread," and "Half and Half." Local dealers say McGibbin's manilla is one-half manilla, the other half being a hybrid combination. Mr. B. M. A. officers refuse to state the price agreed upon, but say it is very satisfactory. From a private but authentic source it is learned that the farmers are to be supplied with twine of the best grade at 15 cents per pound, other grades at 12 cents.

Col. Thornhill says that 50 F. M. B. A. lodges in this vicinity have agreed to buy their twine through State Agent McGibbin, and that each lodge will require at least 2,000 pounds—a total of 100,000 pounds for Macon and a portion of Monticome counties, Christian, Sangamon, and DeWitt counties have followed suit, and it is confidently expected that the entire farming contingent in the state will be in the combine against the twine trust and that their orders for this year's supply will be in the hands of the state agent by June 1.

There is one young man in Decatur who thinks he is very smart, and that he is a great schemer. He has been corresponding with two girls in a distant city and wants to quit, but he didn't know how. So he had some funeral notices of himself printed. The whole thing was as trivial as possible. "Died, May 13th at the residence of his parents, in Decatur, Ill., in the 21st year of his age, John S. and son, was the way the notice ran, in heavy faced type with a black border all around. Then he sent one to each of the girls, and they, poor things, were probably "all broke up" when they got them, and are now wearing crepe in their buttonholes.

The Experience of a Car Load of People at Peoria.

The Peoria Herald thus describes the effects of lightning in an electric street car there on Sunday night:

The highest authorities on electricity declare that in a severe thunderstorm an electric car affords the safest possible shelter. Those who constituted a load of passengers on an Adams street electric car during this storm of last evening are inclined to dispute the highest authorities' assertion, despite the authorities are eminently correct.

The car was crowded with passengers, the seats and aisle being jammed full. Those who were standing under the shelter of an adjacent porch while the thunder was crashing saw a ball of fire run along the overhead wire, and in a twinkling, ran down the trolley spring or shaft, and in an instant the whole car seemed to be ablaze. Instantly a panic, the like of which was probably never confined to so small a space, was fastened upon the passengers, and men, women and children screamed, men shouted, the cracking of glass all around the car mingled with the natural noises of the storm, the men crushed, squeezed, crowded, jammed, fighting their way between their fellow passengers or crawling or jumping over them.

In their mad stampede to get to the doors and windows. One man gashed his chin and arms so severely on the edges of the broken glass that a physician had to sew his wounds up. Another individual, taking flying leap from the window, alighted squarely on the top of his head and cut and bruised himself upon the pavement in a shocking manner. Fortunately the car was stopped the instant the bolt struck it, more than 100 feet away from the street.

The passengers were all so much frightened that they were going to be benumbed alive and in a twinkling the car was a mass of wailing humanity.

One woman was taken out in a fainting condition, while several passengers received injuries, and all had never been so badly scared in their lives.

In the connection it is proper to state that in a thunder storm an electric car is perfectly safe. It is protected by arrester's rods, and nothing save the concussion and the illumination caused by the explosion of the bolt, can affect the interior. The bolt of last night was an unusual one, and its like may not be experienced again in many a year. If anybody had been killed last evening it would have been the mostman in the city, and it is a wonder that no one was killed in the condition right after the accident as he was before it occurred.

Mason City has a bell in a tower that beats the celebrated curfew all hollow. It rings at 8 p. m. and it rings every night in the town. When its tones float out in the dense night, the Macon county are every boy and girl, 12 years of age and over, as fast as his legs can carry him. A village ordinance makes it a punishable offense for a youth to be on the street after 8 o'clock. There is a rush and a noise when the fire bell rings that would do credit to a fire alarm in any city, and in five minutes the town is a scene of confusion. The youngsters who have been playing ball under the electric light have disappeared. It is a blessed, good idea, and ought to be in force in many other places.
